

Pic-To-Send iOS project - Design & WireFraming

As per the requirements, we have designed the UI of the PTS application as a Prototype and wire-framed the UI components using Figma Desktop application.

HomePage Screen

HomePage Screen:

This is the Main HomePage Screen of the PTS Application. It consists of Two Interactive UI Components in the Navigation Controller namely :

- Peer-Peer Connectivity Button (Top LeftMost Button on Navigation Controller)
- Image Gallery Picker Button (Top RightMost Button on Navigation Controller)

Image Gallery Picker Screen

C) Image Gallery Picker Screen:

In this screen, the user shall select an image. He can only select and send 1 image to all the connected devices at a time.

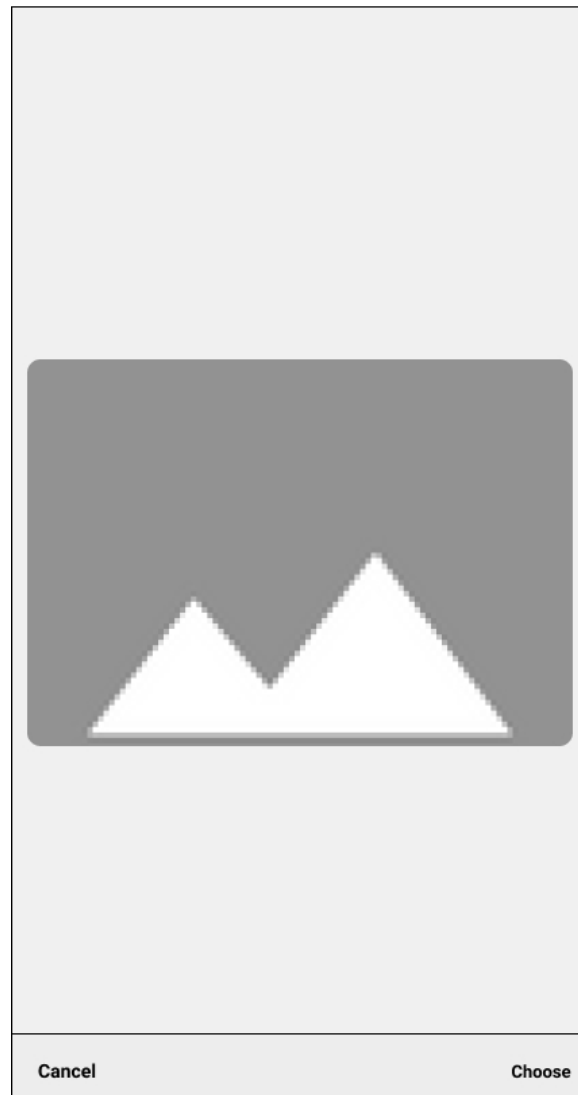

Image Preview Screen

D) Image Preview Screen:

This screen let the user preview the image selected from the image gallery.
